

Energy Savings Program

Affiliated Power Purchasers International, LLC (APPI), an independent energy consultant, identifies and implements solutions that reduce electricity expenses for commercial and industrial clients. APPI provides clients one-on-one consultation, energy market insight, and electricity procurement expertise needed to make prudent business decisions in the deregulated, rapidly changing Pennsylvania electricity market. Additionally, APPI provides other solutions to reduce energy consumption and expenses.

Why Choose APPI?

Since 1996, APPI has been an industry leader, providing clients with energy advice and expense reduction solutions. APPI has assisted more than 2,500 clients. With more than 10 years of experience in the PA electricity markets, APPI is pleased to help members of the Mechanicsburg Chamber of Commerce through its relationship with the PA Chamber of Business and Industry.

How APPI Manages your Electricity Costs

APPI's staff of industry analysts, regulatory experts, and energy consultants:

- Retrieve information, data and usage profiles for all of your electricity accounts
- Develop a buying strategy
- Provide education about the electricity markets, energy conservation methods, and other savings opportunities
- Structure an electronic Request for Pricing Proposal (RFP) for response by qualified, vetted, competitive suppliers
- Identify and review with you the best price, and contract terms and conditions that fit your business needs
- Manage the transition to a new supplier
- Serve as your advocate in the market place

APPI's Electricity Savings Program provides customized solutions, a recommended course of action, and ongoing support. You pay no upfront, hourly, or retainer fees. APPI is compensated only if you choose to implement a solution.
