## Negley's Water primed and pumped for their new location

Mechanicsburg, PA — **Negley's Water** celebrated the grand opening of their newest office location with a ribbon cutting ceremony by the Mechanicsburg Chamber of Commerce.

Starting in 1979 as a well-drilling company, **Negley's Water** has always been dedicated to giving families access to water. As they grew, installing and servicing well pumps became a natural next step for the company. Continued growth has brought water treatment as a major component of the business that serves customers throughout Pennsylvania, Maryland, West Virginia, and Virginia.

Trent Stumbaugh, Vice President of Water Treatment, commented "This is a very significant location for **Negley's Water**. We have served the Harrisburg Metro area in all facets of our business for decades, but this location really allows us to become a stronger member of the local community and puts us in a better position to serve our customers in the Mid-State. The primary focus of the **Negley's Water** Mechanicsburg office will be water treatment, however, the growth of our Well Drilling, Pump, Geothermal and Geotechnical divisions will all be supported from this location."

The new office is located at 7 Keener Drive, Mechanicsburg, 17050. For more information on how to take care of hard water, iron, acidity, sulfur, and more call **Negley's Water** at 717.590.7370 or visit [negleyswater.com](http://negleyswater.com)
