The Best Business Tax Strategy? Being Tax-Free, of Course.

Employee Stock Ownership Plan is a US Department of Labor program, established in 1974 generally designed for businesses with 20 or more employees, the goal was to create a deferred tax program that would allow business growth and address the ever concerning problem of retirement for workers. But what if your business does not have 20 employees? There's a relatively new program called an **Employee Ownership Trust** that is designed specifically for smaller organizations.

The Pennsylvania Center for Employee Ownership is a 501(c)(3) nonprofit that exists for one reason, to raise awareness about a remarkable program that can benefit business and business owners.

MID PENN BANK DONATES \$100,000 TO BASSER CENTER FOR BRCA AT PENN MEDICINE

Millersburg, Pa., October 4, 2023 -- Mid Penn Bank (the "Bank"), a wholly-owned subsidiary of Mid Penn Bancorp, Inc. ("Mid Penn") (Nasdaq: MPB), is proud to announce its continued partnership with the Basser Center for BRCA at Penn Medicine ("Basser Center") in Philadelphia. On October 3, Mid Penn Bank President and CEO Rory Ritrievi presented the organization with a \$100,000 donation from funds raised by the 2023 Mid Penn Bank Celebrity Golf Classic, which took place in July.

"Approximately 1 in 200 people have a BRCA gene mutation, putting them at heightened risk for certain cancers. The Basser Center's groundbreaking research is making progress toward detecting cancer early before it becomes life-threatening, or preventing it from developing at all," Ritrievi said. "I could not be more proud to support the Basser Center's mission and work."

The Basser Center is the first comprehensive center for the research, treatment, and prevention of BRCA-related cancers. These hereditary mutations affect both women and men and can increase lifetime risks for cancers including breast, ovarian, pancreatic, prostate, and melanoma. The center's unique model provides funding for collaborative research, education, and outreach programs around the world. The Basser Center has helped to accelerate progress for cancer research, including contributing to the development of FDA-approved targeted therapies for BRCA-related cancers.

"We are honored to have Mid Penn Bank as a partner in our fight against BRCA-related cancers. This gift will help us advance genetics research and allow carriers of BRCA mutations to live longer, healthier lives," Basser Center Executive Director Susan Domchek, M.D. said. "We are truly grateful for Mid Penn Bank and its continued support."

This is the second year that the Bank has raised money for the Basser Center through its annual Celebrity Golf Classic. This year, the fundraiser brought together more than 60 celebrities and sponsors passionate about raising awareness and advocating for increased funding for research, legislative advocacy, and high-quality screening, diagnosis, and treatment of breast cancer.

New Electronic Tax Filing Requirements for Businesses

October 3, 2023 - Does your business file any tax forms on paper instead of electronic? Most businesses will be required to electronically file their tax forms, including W-2s, 1099s, Affordable Care Act, and others starting in 2024.

Notable Changes

New regulations combined various forms, such as W-2 and 1099 forms, to determine the overall count of submitted tax forms. Under the prior rules, companies were allowed to bundle similar forms together. For example, if they had fewer than 250 forms of a particular type, e-filing was optional. However, the new directive states that the company must file electronically if the combined total of all forms exceeds ten.

Between the reduction from 250 to 10 and the aggregation of form types for this limit, many more companies will be required to e-file these returns. Taxpayers grappling with challenges in adhering to e-filing regulations can request hardship waivers, while administrative exemptions have been introduced to streamline tax administration efficiency.

Preparing for the Transition

Businesses that currently file paper returns should prepare for the transition to e-filing. To facilitate this shift, the IRS has introduced a new online portal called the Information Returns Intake System (IRIS), allowing businesses to electronically file Form 1099 series information returns. IRIS is a secure and accurate free e-filing service that doesn't require specialized software. This service is especially advantageous for small businesses that traditionally send their 1099 forms on paper to the IRS. In anticipation of the expected surge in e-filing in 2024, the IRS encourages companies to plan ahead by applying for a Transmitter Control Code (TCC) if they don't already possess one.

Please contact your advisor at Trout CPA for more information or assistance with filing.

CAEDC Launches Two Tourism Grants

The Cumberland Area Economic Development Corporation (CAEDC) through its destination marketing arm, the Cumberland Valley Visitors Bureau, is announcing the return of tourism-focused grants. The returning Tourism Product Development Grant and a new grant, the Tourism Recovery Grant, will launch on Monday, August 28th.

The Tourism Product Development (TPD) Grant is intended to increase the number of products, experiences and services that draw overnight visitors to the Cumberland Valley. Awarded grant projects will increase the number of visits, length of stays and spending by visitors in the County. Applicants for the TPD Grant can request between \$25,000-250,000 (previous TPD grant capped at \$100,000).

The Tourism Product Development Grant has been on hiatus since mid-2020.

The new Tourism Recovery Grant is designed to help tourism-related industries recover from the Covid-19 Pandemic. Applicants can request between \$2,500-\$10,000 in funding for this program. The grant can be utilized for the purchase of machinery and equipment, marketing to new audiences, development of new experiences and deferred maintenance that increases tourism or enhance the visitor experience.

For both programs, applicants must provide at least \$0.50 match for each dollar awarded. "We're excited to re-launch tourism grant opportunities for many businesses in the Cumberland Valley as they continue to rebuild and find new ways to highlight our area as a tourism destination" said CAEDC Marketing Manager, Ashley Kurtz.

CAEDC began offering tourism grants in 2010 and has awarded over \$1.9 million to 199 projects. Notable grant projects include a large outdoor entertainment area at Midway Bowling Alley, two Escape Rooms at Grand Illusion Hard Cider, portions of the Cumberland Valley Rail Trail, including the Conrail Museum, a new performance space at the Central Pennsylvania Youth Ballet, and a tasting room at Winery At The Long Shot Farm.

The Winery at The Long Shot Farm Co-Owner Tina Weyant said "We have been growing grapes and berries in the Cumberland Valley for many years, and we are so thankful for the generous support from CAEDC, allowing us to share our passion for making wine."
