FOR IMMEDIATE RELEASE

Katsu's Dojo 3D opens storefront in Mechanicsburg

Mechanicsburg, PA — **Katsu's Dojo 3D** recently celebrated its Grand Opening with a ribbon cutting ceremony with the Mechanicsburg Chamber of Commerce.

Katsu's Dojo 3D is a 3D printing business and is an expansion of owner David Everhart's home-based craft business. This new storefront not only offers an outlet for Everhart to sell his novelty creations but also expands into specialty printed items. **Katsu's Dojo 3D** continues to participate in regional craft fairs, however, the new location allows those interested in visiting year-round.

"The expansion of 3D printing and the use of this technology can take production and creation to infinite levels," says Everhart. "If it can be designed, it can be made." **Katsu's Dojo 3D** specialized in flexi creatures including dragons and fantasy characters. **Katsu's Dojo 3D** accepts bulk orders and will make custom items. "3D printing is constantly growing and being used for more than just toys and novelty items. The technology has allowed for the production of display and decor items, replacement parts, anything that you can imagine," Everhart added.

Katsu's Dojo 3D is located at 123 E Main St in downtown Mechanicsburg. Visit their website, katusdojo3d.com and their Facebook page for a catalog of items, hours, updates, and schedule of craft show participation.
